Profile

I'm an AI engineer and CTO at Doctor911, where I lead a three-person product team. I build AI assistants, RAG search systems, and tools that automate business tasks.

Experience

Doctor911

Chief Technology Officer (CTO)

Mar 2025 – Present

Jan 2026 – Present

- Lead a three-person product team: two engineers and one UX/UI designer.
- The AI products I built contributed to 10× web traffic growth and company profitability.
- Built voice triage with Gemini Live and lab-report processing with Cloud Vision OCR.
- Designed RAG search on Vertex AI and an MCP server for internal tools.
- Lead AI strategy at Doctor911, selected for ChileMass Emprende 2026.

AI Engineer

Mar 2025 – Jan 2026

- Built four WhatsApp agents and two web agents with LangGraph and FastAPI.
- Integrated exam recommendations, Meta Flows, catalogs, and Transbank payments.
- Combined AI agents with business rules and medical review for clinical approvals.
- Deployed the platform on GCP Cloud Run with production monitoring.

WiseConn Latam

Data Science Intern

Sep 2024 – Mar 2025

- Built CNN forecasting models for irrigation and classifiers for solar installations.
- Deployed models on SageMaker and S3 with validation and metric tracking.
- Led a cross-department data governance initiative.

Unitti

Jr AI Engineer

Jul 2022 – Jul 2024

- Automated extraction and reconciliation of about 800 PDF invoices per month.
- 85% of invoices processed without manual intervention; ten minutes to under one per document; monthly close from eight days to three.
- Built an NL-to-SQL app and improved queries using feedback from users.
- Developed Python APIs over PostgreSQL with automated tests.

Selected projects

MiAutoCheck (client): An API that combines vehicle photos and market research into a PDF valuation report. Photo inspection, five research agents, and a supervisor.

EPE (client): AI features for workplace well-being: emotion analysis and personalized exercises, with crisis detection and personal-data redaction. A/B prompts, LLM-as-judge, and Langfuse.

Doctor911 internal operations: agent for team coordination and recurring tasks.

Education

Master of Science in Data Science · U. Adolfo Ibáñez

2024 – 2026

Software Engineering · U. Adolfo Ibáñez

2020 – Jul 2025

Industrial Engineering · U. Adolfo Ibáñez

2020 – Jul 2025

M.Sc. GPA: 3.6/4.0. Thesis with Maximum Distinction: +2.25 pp macro-F1 over SMOTE (3,675 configurations).

Tools and languages

AI: LangGraph, LangChain, RAG, MCP, PyTorch, XGBoost, OpenAI, Anthropic, Gemini Live, Langfuse.

Development: Python, TypeScript, SQL, FastAPI, Next.js, PostgreSQL, Docker, CI/CD.

Cloud: GCP (Cloud Run, Vertex AI, Cloud Vision), AWS (SageMaker, S3), Azure.

Languages: Spanish (native), English (advanced), German (basic).
